

End Of The Blue Dolphins Book R

Written and Illustrated by Zachary

This is the most important fact in the beginning of Island of The Blue Dolphins. In the beginning, there was a medium problem, this is what it was, Captain Orlov shoved Chief Chowig, then the warriors came down.

This is the most important fact in the middle of Island Of The Blue Dolphins. In the middle, there was a BIG problem. When Karana was in her small boat going to California, her boat started leaking, so she decided to go back to the island. And then, she fell asleep on the sand.

This is the most important fact for the end of Island Of The Blue Dolphins. There was a BIG problem, when Karana was on the beach she saw a SUNAMI and heard an EARTHQUAKE!!! Karana held on a cliff and survived the earthquake and sunami.

My most favorite part was when, Karana showed compassion to Ron and took care of him. I like that part because it makes me happy.

My least favorite part was when Rontu the 1st, died. I don't like that part because it's really sad when your dog dies.

I'm 10 years old and I'm in 5th grade.

This book is about the Chumash Indians
