

Flat Emre

Written and Illustrated by Emre

One night I brushed my teeth and went to bed.

While I was sleeping the tv fell on me.

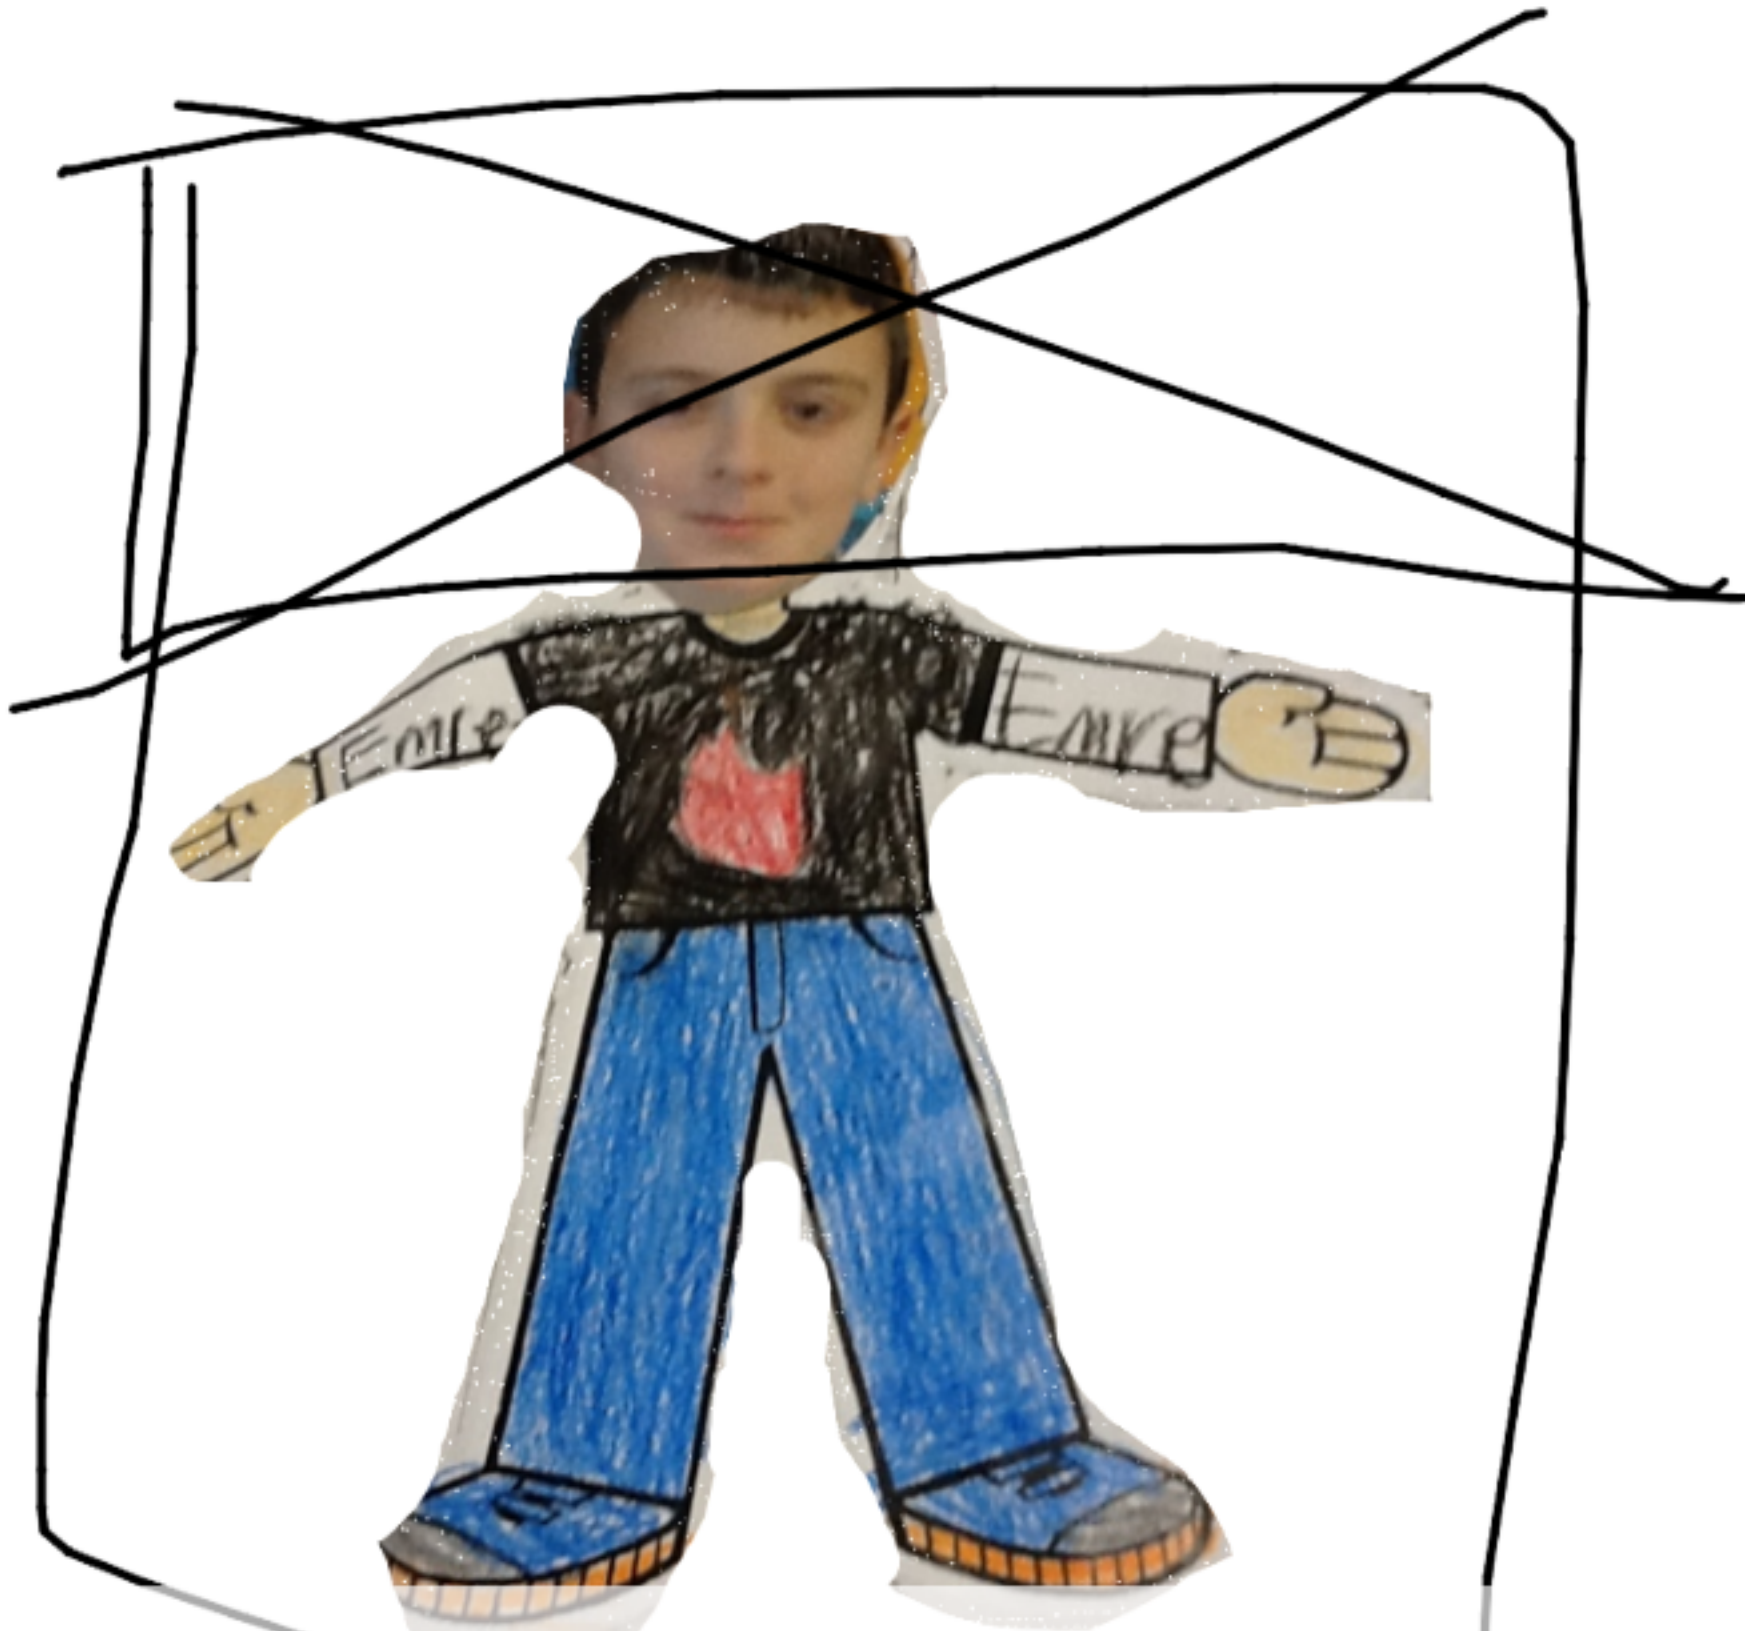

I'm flat!

Then, I woke up and I was very hot.
That's when I just found out that I was
flat.

I was so scared 'cause I thought my mom would hang me outside to dry.

I like being flat! I can go in the mail. I could be sent to Turkey. I can see my grandma. Maybe I might even get sent on vacations without my family. I could go to Turkey by myself.

I could sneak out of places. If I get captured by a bad guy I would sneak out of the room. I would be great at that.

Maybe I could save someone. I could fold myself into a key.

Being flat can be cool! I love it!

Being flat is not always good. I could fall into the sewer. I could be sick from all the germs in there. I might. Maybe the rats are vicious.

I could also fly away by strong winds. I can get lost. I might fly out of the atmosphere. It is not good at all. It can be a bad life.

Don't look!!!!!!!!!!!!!!

You should learn how to take care of me if you have me. That is what the book will tell you.
